

Sustainable health and social care

Translating the LTP into action

Carrie MacEwen

HSJ conference Spring 2019

Implementation

‘Framework for local planning’ – dependent on:

- National policies and legislation
- Clinical standards review
- Workforce Implementation Group
- Spending review
- Social care green paper
- Prevention Green paper

Long term plan

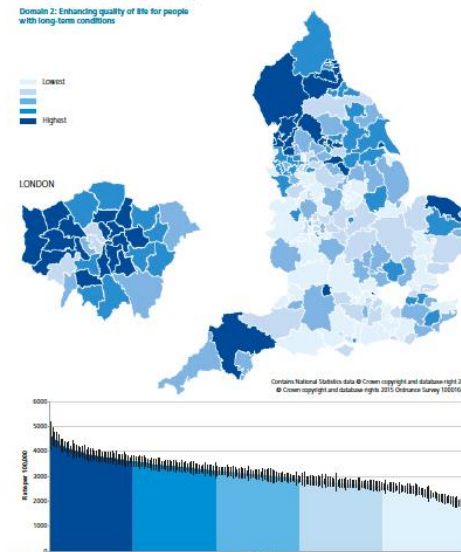

Variation and inconsistency of care

- Community/primary/secondary care
 - Mental/physical health
 - Demographics
 - Outcomes
 - Geography
 - Outcomes
 - Productivity
- *GIRFT*
 - *Evidence Based Interventions*
 - *Choosing Wisely*
 - *Leadership development*

PROBLEMS OF VISION

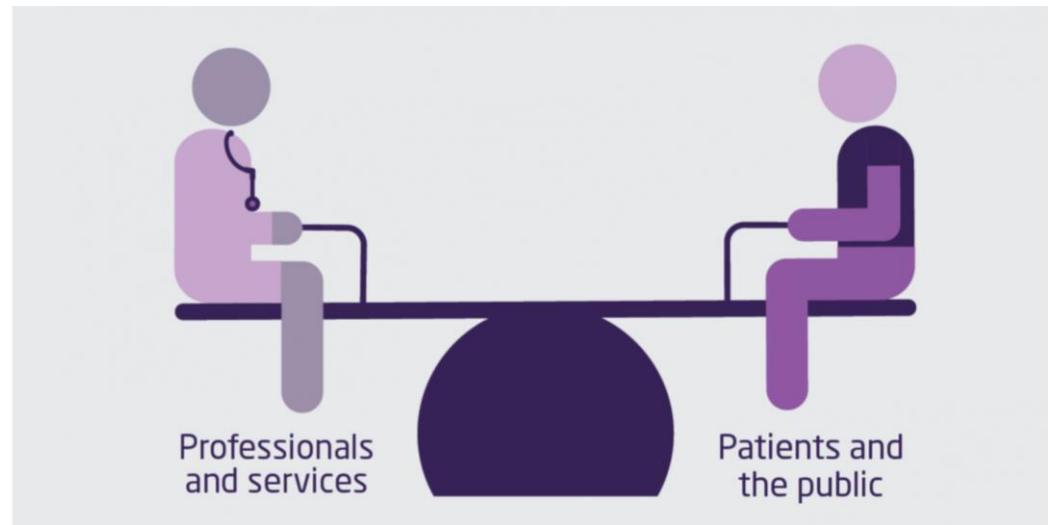

Map 18: Rate of admission to hospital for cataract surgery in people aged 65 years and over per population by CCG
Directly standardised rate, adjusted for age and sex, 2012/13

Domain 2: Enhancing quality of life for people with long term conditions

Empower the population

- Patients and carers
 - Key point of the workforce and agents for change
 - *Shared decision making – personalized care*
 - *Technology*
 - *Prevention (work!)*
 - *Shared responsibility for health*

Staff and people

Short term

- *Enhance retention – all staff, all stages*
- *MTI and overseas recruitment*

Medium term

- *Develop and enable new ways of working*
- *Optimize all staff role expansion and skills*
- *New roles*
- *Technology*

Longer term

- *Case for more students (train the ones we have effectively)*
 - *Embed flexibility*
-

Better ways of delivering care

Keeping patients at home

- *Primary and community care*
- *Same day emergency care*
- *Public education and use of IT*

Cross boundary team work and connectivity

- *Training and education*
- *Safer joined up care*

Culture shift

- *NHS Assembly*
-
